Staying in Hospital

Adam's Story

Adam and mum packed an overnight bag. Adam was getting ready to go to the hospital for an operation on his knee.

Adam felt nervous.

At the hospital, the nurse took his temperature and helped

him to settle in. She was very kind. There was a male nurse called John - he told silly jokes and made Adam and his mum laugh a lot! Adam was not allowed to eat or drink before his operation. The radiographer took an x-ray of his knee.

The nurse put special cream on Adam's hand. It was called "magic cream" and it felt cold. The doctor put a small needle into Adam's hand. It didn't hurt. The hospital porter wheeled Adam down to the operating theatre in his bed. His mum came too.

The surgeon was ready to operate.

After the operation Adam felt a bit sleepy. His knee had a bandage on it. His family came to visit him in hospital. They brought him a comic and some sweets. Adam was allowed to go home the next day.
